CLASSIC

---

TIMELESS

# MODERN

Our modern range of designs express a sense of simplicity and luxury in every element. With clean crisp lines and elegant metallic colours, they have a progressive design that flaunts well-defined geometric shapes and soft curves.

# MODERN

Luxurious forms meet a minimalist backdrop. Stylish lines, circular shapes, and nature-inspired forms come together in this concrete modern suite.

# CLASSIC

For something to qualify as a classic takes time and a universal appeal. So, we brought the best of European minds to create products that resonate with the Indian sensibility.

# CLASSIC

The extensive research, meticulous craft, and the heart of every artist poured into the pieces have transformed them into classic masterpieces.

The image is a vertical advertisement for a bathroom fixture. It features a dark brown background with a large, bold title 'TIME LESS' in a light yellow color. Below the title is a short paragraph of text. The background image is a photograph of a bathroom with vertical wood paneling. A white bathtub is visible on the right side, with a modern, minimalist shower fixture mounted on the wall above it. On the left side, there is a wooden vanity with a few bottles on it, and a wicker basket on the floor. The overall aesthetic is rustic and modern.

# TIME LESS

True beauty is timeless.  
Not only it is rare to find,  
but even rarer to possess.  
But with Queo, you can  
change this forever.

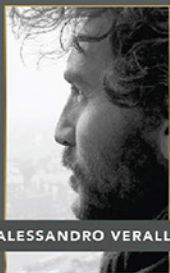

# TIME LESS

Each Queo product is so thoughtfully crafted that it transforms into a thing of beauty for the time that was, is, and is yet to come.

# CERAMICS

The gravitas of a luxury bathroom lies in the beautifully carved depths that help in the flow of water from the tall faucets. Carved with precision and care, our range of ceramics can add depth to your bathroom and give it a luxurious dimension. From bowls to basins, our modern collection is designed to redefine the contours of your bath space.

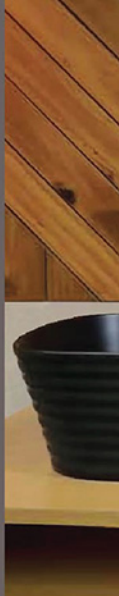

# FASHION

Queo's greatest legacy has always been the creative heritage that each of its master designers brings to the Fashion Bathroom Collection. It is an ensemble of inspired creations that range from dramatic shapes to opulent curves and from hi-tech functions to classic looks. What makes this collection more interesting is that there are pieces inspired by geographical structures, there are experiments in bending chrome and there are masterpieces angled at the unheard of and unlikely 138 degrees. This is indeed a world of fashion, beauty, and unparalleled elegance.

# F - L e F o r m e

F-Le Forme is a collection that brings a dramatic theme to your space. In the domain of clean, linear lines, this collection introduces the geometry of circles within circles that appear as ceramic grooves on the elements. A fresh new character emerges as the grooves mimic an organic form sculpted in ceramic giving your bath space a stunning, luxurious centerpiece.

O K I S A T O

**(F-COURBE)**

Renowned Japanese designer-cum-architect and founder of design house Nendo, Oki Sato created the F-Courbe line of sanitaryware. Having worked across varied disciplines and with every medium imaginable, Sato's uncluttered aesthetic has been a welcome departure from the norm, resulting in innumerable collaborations over the years.

A DRAMATIC

YOUR BATH  
SPACE

# F-Courbe

Courbe is French for 'curve'.

And the radical curve is what defines the various elements of this stunning collection. It is a dramatic turn in your bath space. The otherwise placid surroundings are highlighted by this sudden artistic distortion of form.

With F-Courbe, Queo is bending the rules of indulgence by creating never-seen-before spaces where luxury is experienced in a new light.

# ANGLES OF PERFECTION

# F - Morwen

Geometric planes intersect at aesthetically pleasing angles to bring alive the angularity that symbolises modern design. The series takes its name from its distinctive feature - the inclination. Protruding directly from the wall at an angle of 138 degrees, the F-Morwen series can be characterised by the square shapes, rounded corners, and thin profile lines that alter the perception of space while maintaining reduced dimensions. It is the perfect choice for those who have a taste for neo-modernist designs.

# F-Fiordo

The fiords of Scandinavia inspired Paolo Zani to create masterpieces of F-Fiordo. The water flow mimics the meandering waters of the fiords. This creates a beautiful amalgamation of geometry with geology, the minimal with the indulgent. In every piece of this collection, the simplicity of nature meets minimalistic modernity.

# CONTEMPORARY

The Contemporary Bathroom Collection is a reflection of the times. It is modern and showcases the perfect minimalist aesthetic that the brand Queo has mastered over the years. Intimate spaces need to have their tranquillity and charm, and the collection expresses this aesthetic while merging it with the idea of pure indulgence. A large part of the series is an ode to simple shapes that lends a sense of starkness to create a great designer bathroom. Not only is it entirely modern, but it is also futuristic in its bareness and celebration of sharp lines.

# STYLE

Much has been said about the idea of style. Some see it as the outer casing that hides inner substance, while others see it as a way of life. At Queo, the Style Bathroom Collection reflects the style of indulgence. It is the coming together of perfectly crafted pieces where the idea of luxury guides every curve. Here you will discover pieces that are a tribute to ingenious creativity that do not overlook the functional aspect of the bath space. ## F-Clair

Backed by research in colour therapy, Queo introduces F-Clair, a range of bath/shower and basin mixers.

The mixers emit light with the water flow and the colour of the light is determined by the water temperature. Colours are known to have therapeutic benefits like restoring mental and physical balance, and their intelligent use makes the time spent in the bathroom a refreshing experience.

# CONTEMPORARY

The Contemporary Bathroom Collection is a reflection of the times. It is modern and showcases the perfect minimalist aesthetic that the brand Queo has mastered over the years. Intimate spaces need to have their tranquillity and charm, and the collection expresses this aesthetic while merging it with the idea of pure indulgence. A large part of the series is an ode to simple shapes that lend a sense of starkness to create a great designer bathroom. Not only is it entirely modern, but it is also futuristic in its bareness and celebration of sharp lines.

# STYLE

Much has been said about the idea of style. Some see it as the outer casing that hides inner substance, while others see it as a way of life. At Queo, the Style Bathroom Collection reflects the style of indulgence. It is the coming together of perfectly crafted pieces where the idea of luxury guides every curve. Here you will discover pieces that are a tribute to ingenious creativity that do not overlook the functional aspect of the bath space.
